RH

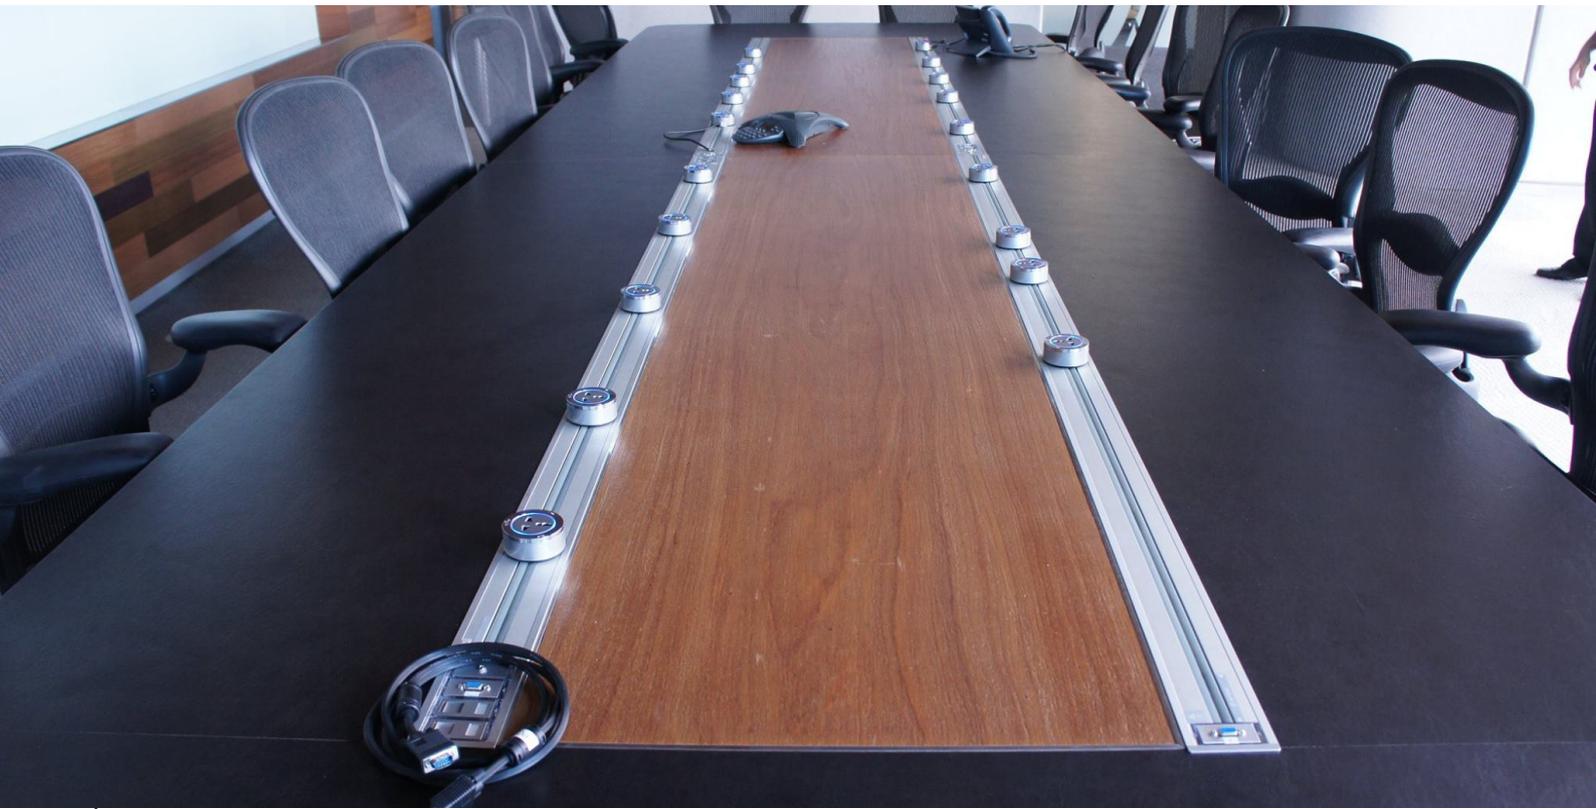

Built-in serie

RH profiles are perfect for desks, meeting tables and workstations, since combining elegant design and practicality, allow the creation of an entirely electric-media furniture in which it receives the traditional electrical user, together with all the necessary multimedia connectors.

Technical data

Electrical

Voltage: 250V single phase

Current: 32 A maximum at 25 ° C *room temperature*

Frequency: 50/60 Hertz

Materials

RH Material: Aluminum

Insulation material: Polycarbonate

Dimensions and weights

RH1 | Overall dimensions: 70 mm x 57 mm (*width. x prof.*)

Weight: 1,06 kg (*per meter*)

RH2 | Overall dimensions: 70 mm x 34 mm(*width. x prof.*)

Weight: 0,75 kg (*per meter*)

RH

Built-in profiles | Inspirations

Meeting table

Create dream tables by integrating the RH profile in marble, glass, wood, etc.

Kitchens

A minimal design for refined kitchens.
