# INSIDE

Minimal built-in profile

Inside is the first minimal profile, adaptable to all types of furniture from classic to the most modern. The particularity of this profile, is the reduced visible surface (only 25 mm), this characteristic makes it the perfect element for the integration of the GSS System™ in the world of furniture.

**Wood**  
Inside it is very elegant even encased in wood.

# INSIDE

Minimal profile | Special finishes

*Let yourself be conquered by the new finishes of our electrified profiles, specially designed for the various additions of the Inside profile.*

## The series | BRONZE

Bronze is a very precious color, looks like a shade of brown dark very hot and intense. In the light version it presents some golden reflections. Combined with any type of wood, it creates a harmony of shades that marries perfectly with both modern and traditional furnishings.

The dark version of the bronze manages to accentuate the beauty of the Inside profile. Moreover, in terms of pairings, it turns out to be very flexible.

## The series | GOLD

Shiny gold is a decidedly refined and elegant color, it can embellish any furnishing accessory. Ideal for kitchens and classic style furnishings, perfect if matched with white marble.

Brushed gold is a precious color because it has a brushing that characterizes the texture of the finish. Ideal for classic style kitchens and furnishings, perfect if matched with white marble.
